# FUSION MEETS IMAGINE LEARNING

Ask about our valuable tools to empower your students and overcome the challenges faced in education today. Whether you are an administrator, teacher, or education professional.

### Intelli- Sync option

Fill teacher vacancies for high school core courses with an online educator dedicated to your school.

### Small Group Targeted Instruction

High-quality online interventions that support your students' learning goals. Give students the personalized, data-driven support they need and overcome staffing shortages and equity issues.

### Address Teacher Shortages

Discover support and creative solutions to address teacher shortages and vacancies. Imagine Learning can help across a variety of grades and subject matters.

## Words from the Districts

"...looking forward to giving our student's the opportunity to take Imagine Learning's German course."

-Laurel Highlands

"Imagine Learning's Substitute Teacher option has given our students the opportunity to successfully complete Physics and Honor Physics."

-Burgettstown

"This program has enhanced our restorative practices that we have been emphasizing this year. Our staff and students are utilizing the program and we are seeing positive results in academics, attendance, and behavior."

-Brownsville, on Purpose Prep

### A Message from Lisa Mauro, Principal/ Supervisor of Online Learning Programs

As a new month dawns upon us, it is with great pleasure that I extend a warm and hearty welcome to the August edition of our Fusion Online Learning Program newsletter. As we embrace the ever-changing landscape of education, it is inspiring to witness the resilience, adaptability, and enthusiasm that define our districts and our school community.

As we venture into this new month, let's continue to embrace challenges as opportunities and hurdles as stepping stones. Our online learning program is not just a classroom; it's a launchpad for dreams, a forum for innovation, and a canvas for growth.

With warm regards,

Lisa Mauro, M.Ed
